The shape of the ideal

Each glass has its own architecture, each line must convey beauty, almost weightless lightness and stability. Each part contributes to creating a perfectly balanced structure.

Skyline is the tangible expression of such concept: foot, stem, bowl and rim create a perfect harmony.

Senses are immediately attracted by the shapes but the real surprise comes from the sensory experience.

Discover all models within the Skyline collection and experience a higher level of perception.

VDGLASS

skyline
Universale

Open the door to the Skyline universe and find the most versatile model, suitable for a wide range of wines, from red to white and from the most delicate taste to the richest and most complex one.

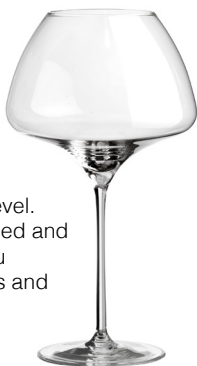

skyline
Flute Classico

The classic flute reinterpreted into a Skyline glass. Perfect for festive events as well as for tasting.

skyline
Balloon Cult

Born to be a 'cult'. It stretches your perceptions to a higher level. Its volume makes you want to try it with aged and complex red wines but its shape takes you to new territories: try it with top white wines and with bubbles of character and history.

skyline
Meditazione

The cherry on the cake. It exalts the sweet tones of dessert wines and delicately unfolds the strongest hues within spirits.
